REMARKS

By this Amendment, claim 1, which was rejected, has been canceled. Claims 3, 11, and 13 were rejected under 35 U.S.C. § 112 with the Examiner pointing to lines 9 and 10 of claim 3. Claim 3 has been amended to more clearly define Applicants' invention and the relationship of the holder plate with respect to the support shaft. By this Amendment, it is submitted that claim 3, now also rewritten in independent form, fully complies with 35 U.S.C. § 112 and is in condition for allowance, as are claims 11 and 13 dependent thereon.

Enclosed with this Amendment is a Terminal Disclaimer authorized by Applicants and signed by the undersigned attorney to obviate the double patenting rejection over commonly owned U.S. Patent No. 6,650,453. The Examiner is authorized to cancel the withdrawn claims upon allowance of the application and subject to Applicants' reserved right to file a divisional application on the withdrawn claims during the pendency of this application.

By this Amendment and upon entry of the Terminal Disclaimer, it is submitted that this application is in condition for allowance, which action is respectfully solicited.

Respectfully submitted,

YOSHIYUKI TAKASE ET AL.
